Eclipse Phase is the post-apocalyptic game of transhuman conspiracy and horror. Technology allows the re-shaping of bodies and minds, but also creates opportunities for oppression and puts the capability for mass destruction in the hands of everyone. Other threats lurk in the devastated habitats of the Fall, dangers both familiar and alien.

In this harsh setting, the players participate in a cross-faction conspiracy called Firewall that seeks to protect transhumanity from threats both internal and external. Along the way, they may find themselves hunting for prized technology in a gutted habitat falling from orbit, risking the hellish landscapes of a ruined Earth, or following the trail of a terrorist through militarized stations and isolationist habitats. Players may even find themselves stepping through a Pandora Gate, a wormhole to distant stars and the alien secrets beyond....

Eclipse Phase is critically-acclaimed and award-winning: Gold ENnies for Writing and Silver for Best Cover Art and Product of the year, and the 2010 Origins Awards RPG of the Year.
